NEXTWORKS™

Portland | Vancouver

Get
Fast & Local
Support

Pride is taken in our rapid response. Our support team is friendly and capable. Support requests are mostly solved online. We come on-site as needed.

▷ Average seven-minute response time

▷ Online portal for easy requests and status

▷ A cohesive support team that is aware of each client's specific needs

Microsoft 365

Nextworks can navigate you through the capbilities of this powerful resource.

Dropbox Business

Consolidate your documents to the cloud to increase your mobility and security.

DELL

Providing enterprise class business platforms with on-site Pro Support.

Why Nextworks?

☑ Our client relationships are long-term. We've never lost a client due to a lack of performance.

☑ Our client loyalty is earned by our quick response time, effective communication, and positive results.

☑ High employee retention builds a team that works successfully.

☑ We are process driven, backed by experience.

COMPLIMENTARY
NETWORK
ASSESSMENT

A Nextworks Virtual CIO can conduct a review of your IT. We will deliver a gap analysis comparing your current IT state with a recommended target state. There is no fee to taking this first step to a more secure and reliable network.

Cloud Mobility

Migrating your core IT functions into the cloud delivers flexibility, increases uptime, disperses up-front costs, and removes physical servers from your facility.
